

Thursday - 23 November 1950

1. Congressman Jackson of Calif. called the Duty Officer, and Mr. Houston contacted him. He requested that CIA, if they desired, have someone in his office on 24 November to meet an attorney named [REDACTED] who had received information regarding an earth-shaking new weapon which he considered of 25X1C sufficient importance to fly east and present to the Congressman. Mr. Jackson could give no information regarding this weapon, other than that he knew the lawyer to be a reputable Naval Reserve Officer and not a crackpot. Mr. Jackson stated that an officer from ONI would also be present. Arrangements completed 24 Nov. with Dr. Chadwell to have representatives of his office accompany me to Cong. Jackson's office.
